Two majestic pine trees which have stood like silent sentinels at the west end of Grand street, have been compelled to give way to the march of improvement, and were cut down Saturday and made into stove wood. They were in the right of way of the street car line and as it is expected work will be resumed on this enterprise in the near future, the street was cleared for that reason. Quite a number of the beautiful pine trees are dying in West Prescott, presumably on account of so many houses being built close to them. The pine trees can't stand too much cultivation or domestication.
